

Presenter guidelines for poster presentations

It is strictly prohibited to take photos of any scientific material without the explicit permission from the authors. If authors aim to encourage photography of their work they are asked to indicate this explicitly on their poster.

Poster boards

Poster boards are in **landscape format**, and authors can make use of the full dimensions of **1900 mm width × 900 mm height**. All the material necessary for attaching the poster to the poster board is available at the registration desk in the PORT VELL room. In addition, there are assistants to help authors put up or take down their posters. The number of each poster its corresponding poster board is given by the Identification Number (ID) of the abstract submitted.

Display time

The general display time is **08:00–19:00 during Thursday and 8:00-15:00 during Friday**. Authors are kindly asked to put up their posters on Wednesday or Thursday.

Authors in attendance time

The authors in attendance time are the time when the respective authors of a poster session must be present at their display for presentation. The authors in attendance time correspond to the coffee break during Thursday and Friday.

Poster preparation

- Place the title of your paper clearly at the top of the poster to allow viewers to easily identify your paper. Indicate the authors' names and address information in order to allow interested viewers to contact you for more information.
- Prepare all diagrams or charts neatly and legibly beforehand, in a size sufficient to be read at a distance of 1.5–2.0 metres. The type is recommended to be 2.5 centimetres high. For example, use different colours for each line or bars contained in your graph or chart.
- Organize the poster in a way that it is clear, orderly, and self-explanatory. The poster must cover the same content as the abstract. Label different elements as 1, 2, 3, or A, B, C. This will make it easier for a viewer to follow your display.
- Include the background of your research followed by results and conclusions. The success of a poster presentation is contingent on how well you convey the information to an interested audience.
